

FINAL FOUR AT BATHGATE

Last Chance to Secure Exclusive Flats at Walker Group's Inchwood Development

Only four flats remain at Walker Group's Inchwood development, giving buyers one last chance to secure a two-bedroom property in this much sought after location.

Part of 16 exclusive apartments located within two separate blocks, the final four form part of the second block recently released, and offer a spacious, opulent home within one of Bathgate's most popular settings.

Inchwood has been a real success since it was launched earlier this year, and once complete will comprise a total of 90 luxury homes. Encompassing a variation of four and five bedroom villas, and sixteen select two-bedroom apartments, the development has attracted a wealth of buyers from throughout Bathgate and beyond, and has already developed into an attractive residential community.

The development's location in Blackburn Road is second to none, and is highly accessible to Glasgow and Edinburgh rail and road links. A range of local amenities and education establishments feature nearby, while the popular Bathgate Golf Course, a sports centre, tennis courts, swimming pool and scenic nature parks are also located only minutes away.

Karen Talman, Walker Group commented: "Inchwood has proved extremely popular with a range of new homebuyers, from first time buyers interested in the two bedroom flats, to families looking for a larger property in the four and five bedroom villas. The development has something for everyone, and offers that little bit of serenity outwith city life, yet only minutes walk to Bathgate town centre. Likewise, both Glasgow and Edinburgh are only 30 minutes each way so buyers can easily commute to both cities.

"The flats that remain are the last apartments available at Inchwood. Only 16 of these were released, providing that little bit of exclusiveness to the buyer."

Aside from the remaining apartments, a range of four and five bedroom villas are still available. Featuring eight individually designed styles of property; the villas offer the highest possible specifications throughout with choice of colour schemes in both the kitchen and bathroom, and either single or double integral garage. Two showhomes are available for viewing Thursday to Monday between 1pm and 5pm, and highlight a typical four bedroom Walker Group home.

Two of the remaining flats come complete with en-suite in the master bedroom, and start from £90,000. The four bedroom villas are available from £142,000 while the five-bedroom property's start from £220,000.
