WALKER GROUP HAVE YOUR NUMBER

Homebuyers moving into Walker Group's developments may end up with more than they predicted for the family house builder has called in the services of a numerologist to reveal the lucky fortunes of the addresses at its nine Scottish developments.

The study of numbers has been used in many cultures, particularly in China, to foretell people's destiny as each one has a positive or negative association. The opening ceremony of the Beijing Olympics was held on 8-8-08 at 8.8.8pm to bring prosperity to the event.

Numerologist, Joan Charles, looked at selected addresses at each Walker Group development to unveil the good fortunes in store for lucky buyers and reveal their likely personality traits. For example at Sherwood in Bonnyrigg, the potential owner of 75 Gladestone Gait will be suited to someone who is charismatic and with the number 5 as their lucky year number, the owner is in for many surprises and a year when lots of things can be achieved.

In contrast the potential owner of 11 Castle Dean Court at Orchard Row, also in Bonnyrigg, will be a perfectionist who loves balance and harmony as well as impeccable taste and an eye for detail. This house will provide special moments to hold as memories for a very long time and will bring structure that has been missing.

However, if you are drawn to 28 Sarti Terrace at Burnside Court in Larbert, then you like to live in the fastlane, with an enthusiastic passion for life. This

year will see you spend more time entertaining at home, showing off your culinary skills but will also see improvements to your income.

Sandy Casey, Director, Walker Group said, "We often have visitors to our developments who express interest in a particular plot number or house number so we thought it would be a bit of fun to find out what the numbers revealed. Favourite numbers are usually because of their association with a lucky experience or a memorable event, as well as superstition".

Walker Group currently has developments at Falkirk, Cumbernauld, Tranent, Bonnyrigg, Larbert and Elderslie.
